

Prime Window Rebate Application

The Glacier Electric prime window replacement rebate is available to members who replace existing windows with Energy Star qualified windows with a U-value of .30 or less. The rebate will be calculated at a \$6.00 per square foot of replacement windows. The rebate is only available if the residence is heated by electricity. The rebate is not available for garden style windows or any windows that increase the total square footage of windows in your residence. Replacement of dual pane windows with wooden frames does NOT qualify for rebate.

Pre and post installation inspection by GEC is required.

Member Name _____ Account Number _____

Service Address _____ Phone Number _____

City _____ State _____ Zip _____

Select Type of windows replaced:

- Single Pane
- Single Pane with storm windows
- Dual Pane with metal frames

Return the following documents to Glacier Electric for rebate:

- Completed and signed prime window rebate application
- Invoices for windows installed
- Proof of Energy Star certification
- Documentation of U-factor of windows (**U-factor must be .30 or lower**)
- Documentation of total square footage of windows replaced.

I certify that these windows were installed in the Glacier Electric service territory in an electric heated residence and that I am a Glacier Electric Cooperative member. I will allow a representative of Glacier Electric or Bonneville Power Administration to verify installation and qualification of windows.

Member Signature: _____ Date: _____

Rebate will be credited to your GEC account, listed above, after a Glacier Electric representative has verified that the windows that were installed qualify.
Allow 6-8 weeks for credit to be applied.
