

GLACIER ELECTRIC COOPERATIVE INC.

POLICY NO. 506

Commercial Electric Vehicle Charging Stations

I. OBJECTIVE:

To establish a procedure when a member installs a commercial vehicle charging station.

II. POLICY:

The member will be responsible for all costs associated with the electrical, including the cost of all Glacier Electric equipment needed for the installation.

Glacier Electric Coop is required to collect the Montana Electric Vehicle Charging Tax for all charging stations in excess of 25kw as outlined by 2023 HB55 and remit such tax to the Montana Department of Transportation.

III. RATES FOR SERVICE

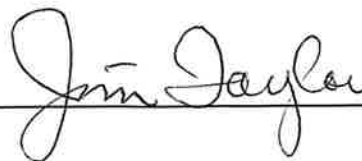

Monthly service charge will be small commercial or large commercial depending on transformer size.

The station will be charged on the equipment KVA requirement monthly.

KWH rates will be the rate class of the monthly service charge calculation.

Effective date 5/28/2025

signature

A handwritten signature in black ink, appearing to read "Jim Taylor", is written over a horizontal line.
